Re: **Amiodarone Shortage/Emergency Protocol**

Charles Lane, MD, WVEMS Regional Medical Director has implemented an emergency protocol for Amiodarone in the event that your drug box does not contain (3) 150mg vials.

Pharmacies have begun to report shortage of 150mg vials of Amiodarone. Pharmacies will place (1) premixed 150mg bag of Amiodarone for EACH vial that they are unable to supply. The outside of the box should contain a label to alert you to this change should this occur.

AMIODARONE DOSING REMAINS UNCHANGED.
