Public Safety personnel are everyday risk managers. This jam packed session will not only provide you more tools for managing high-risk/low-frequency events, but will have you laughing til you cry. Renowned speaker Gordon Graham makes an often dry topic one of the most informational and inactive experiences you'll find. Graham is an experience CHP officer, attorney, and risk manager. His is also a co-founder of FireFighterCloseCalls.com and FireFighterNearMiss.com.

Offering made possible by a training grant
from Virginia Department of Fire Programs
